

NAPA EAGLE WINERY

Today, Napa Valley is known as one of the wine capitals of the world - arguably more acclaimed than even the Bordeaux region in France. However, it wasn't always this way. In a 1976 blind tasting competition later to be known as the famed Judgment of Paris, American Cabs and Chardonnays won, topping those of the French variety. This outraged the French wine industry, but from that day thereafter, America's Napa Valley was established unquestionably as a formidable producer of world class wines.

It was to this history and spirit of American pride that we, Napa Eagle Winery, entered the Cabernet Sauvignon scene. Sourcing our grapes from the heart of Napa Valley from vineyards such as George III, Stagecoach, and Broken Rock, we accept only the best of the best.
